PROFILE

Self-taught Front-End Developer with over 3 years of experience building modern, responsive, and production-ready web applications. Skilled in React, Next.js, and TailwindCSS, with a focus on clean UI, performance optimization, and maintainable code. Passionate about delivering seamless user experiences through efficient and scalable solutions.

WORK EXPERIENCE

Front-End Developer Mar 2025 - Present

Happy Trainers

- Developed and maintained responsive front-end features using React and Next.js.
- Integrated AI-powered meal and exercise planning tools to improve user engagement.
- Migrated backend from Firebase to Supabase, enhancing data management and performance.
- Collaborated closely with UI/UX designers to deliver seamless user experiences.

Front-End Developer Intern Jun 2024 - Sep 2024

BrandAfraz

- Internationalized the web app using i18n and Next-Intl to support multiple languages.
- Implemented key UI sections following design specs and improved UI consistency.

Freelance Front-End Developer Mar 2022 - Mar 2024

Ponisha & Karlancer

- Delivered front-end solutions for various client projects, focusing on clean, efficient code.
- Worked with React, TailwindCSS, and integrated APIs to build production-ready apps.
