EXPERIENCE

Front-End Developer — 03/2025 - 08/2025

Happy Trainers — Canada

- Developed and optimized responsive React and Next.js applications, achieving a 30% improvement in page load performance
- Led the migration of backend services from Firebase to Supabase, reducing data response latency and enhancing application scalability
- Built AI-powered meal and exercise planning features using React components, increasing user engagement by 15%

Front-End Developer Intern — 06/2024 - 08/2024

BrandAfraz — Iran

- Implemented multi-language support using Next-Intl and React internationalization, achieving 80% increase in global user retention
- Developed 5 reusable React UI components for dashboard interface, ensuring design consistency and cross-platform responsiveness

Freelance Front-End Developer — 06/2023 - 06/2024

Ponisha & Karlancer — Iran

- Delivered production-ready React applications with Tailwind CSS for 10+ clients, maintaining 95% on-time delivery rate
- Built complete front-end solutions including UI development, state management, and API integrations across diverse project requirements

PROJECTS

The wild oasis Dashboard — 06/2024 - 07/2024

A React-powered hotel management dashboard for handling bookings, cabins, and user settings with real-time updates, secure authentication, and modern UI.
(**login: yunesmaghsoudie@gmail.com / 12345678**)

Demo: my-wild-oasis-dashboard.netlify.app
Repo: github.com/callmedeci/The-wild-oasis

- Implemented React and Vite frontend with styled-components, reusable UI components, and React Router.
- Integrated Supabase for authentication and data management; used react-query for fetching and caching.
- Launched a production-ready hotel dashboard that centralizes bookings, cabin management, and settings — so hosts can manage reservations and inventory from one fast, reliable UI (deployed & demo available).

The Wild Oasis Website — 09/2024 - 10/2024

A Next.js hotel booking platform for guests to browse and reserve rooms with ease, featuring booking updates, secure authentication, and a modern, responsive UI.

Demo: the-wild-oasis-website-production.vercel.app
Repo: github.com/callmedeci/the-wild-oasis-website

- Built a Next.js and React frontend with TailwindCSS, delivering a clean, responsive, and modern UI.
- Integrated Supabase for booking management and secure data storage.
- Delivered a production-ready hotel booking website that enables guests to book stays with ease through a smooth, secure, and user-friendly platform.
