PROFILE

Front-End Developer with 3+ years of experience building responsive web applications using React, Next.js, and TypeScript. Skilled in performance optimization, i18n, and modern state management. Delivered measurable results like faster load times through efficient integrations and architecture.

WORK EXPERIENCE

Front-End Developer
Happy Trainers — Mar 2025 - Present

- Enhanced responsive front-end features with React and Next.js, boosting page load speed.
- Built and optimized responsive features with React & Next.js, improving page load time by 30%.
- Migrated backend from Firebase to Supabase, reducing data response latency.
- Integrated AI-powered meal and exercise planning tools, boosting user engagement by 15%.

Front-End Developer Intern
BrandAfraz — Jun 2024 - Sep 2024

- Internationalized the platform using Next-Intl, enabling multi-language support and increasing global retention.
- Developed core UI components for dashboards, ensuring design consistency and responsiveness.

Freelance Front-End Developer
Ponisha & Karlancer — Mar 2022 - Mar 2024

- Delivered front-end solutions for diverse client projects, focusing on clean, efficient code and maintainable architecture.
- Delivered production-ready apps for clients using React, TailwindCSS, and API integrations.
